Air Shower II

This new Air Shower II is going to completely transform the way you look at showering.

Our product development team have redesigned the shower nozzles with 4 times as many holes compared to the first generation for an even more delicate splash and lighter, airier feel.

Hand-held Air shower II has 76 nodules, each with 4 holes, hence providing you with the ultimate showering experience. Air Shower II also comes with increased functionality with the inclusion of superior decontamination. Forget the worries of clogging outlet holes due to water quality problems as you can get rid of residual deposits at a touch of a button.

This provides you with the same luxurious feel from the first time you experience it until the last.
